BioCoherence

The systems view of life

A systems theory map of 1668 biomarkers in BioCoherence

Spirit

Drives:
52 positive or negative emotions, feelings and actions, in groups and opposites

Me inside
Me outside
Others

Personality:
16 Jung (MBTI) types in a dynamic evaluation

Energy
Information
Processing
Timeframe

Music:
24 scales, 132 inner chords:
the inner individual music of the body

Personal scale
Personal chord

Alignment:
Scale wave energy through Elfie values

Focus:
Stress, adaptation, HRV, anabolism, total power...

Emotions:
7 main emotional states

Brainwaves:
Alpha, beta, gamma, delta focus states

Wounds:
5 main psychological wounds

Energy

Chakras:
7 or 12 chakras and their related glands and organs

Organisms:
223 symbionts, bacteria, viruses, fungi and parasites

Momentum:
Restraints, equilibriums and movements

Ayurveda:
3 doshas, 15 sub-doshas

Clock:
24-hour meridian clock

Atoms:
40 atoms on the Periodic table

Planes:
Individual planes; planetary link

Influences:
5 elements

Body

Meridians:
12 main meridians, 8 extraordinary meridians

Organ maps:
12 organ maps for a visual representation of organs and their links

Overview
Cardiovascular
Teeth
Respiratory
Vertebrae
Brain
Nervous
Muscles
Reproductive
Digestive
Membranes

Acupuncture points:
421 points in 20 meridians

Traditional chinese medicine recipes:
Hundreds of recipes based on acupuncture points evaluation

Organ systems:
460 organs, organ parts, hormones, and subsystems

Links:
All elements in every category are linked through resonance with some other elements, allowing privileged information and energy exchange

Priorities:
Most in need for help in their category, priorities are discovered through our detection algorithm

Resources:
Best elements in their category, auto-discovered resources can help other elements through resonance connections
